Hello, Brant.

As I only conduct community involvement activities at this site, I am copying the Remedial Project Manager, Mike Cirian, on this email. Please feel free to contact him for technical information about site remediation.

Best regards,  
Cynthia Peterson

**Subject:** Columbia Falls Aluminum Reduction Plant

Good Morning Cynthia-

Trilliant Oilfield Services operates a Thermal Desorption Unit designed to destroy and remove contaminants from soil.

This unit processes up to 50 tons of material per hour. I have attached a brochure for your review. Trilliant would appreciate the opportunity to bid and assist in the clean up of the Columbia Fall Aluminum Reduction Plant Site. We have multiple solutions that may help with the remediation.

Please send further information regarding this site and time frame of remediation.

I can be reached at information below to set up a meeting to discuss our operations.

Regards,

**Brant Burris**
